

blood is flowing from the east
foward of the air

blood is flowing through

blood is flowing from our virgin islands
asleep in widow's garage

blood is flowing through

blood is flowing from the soft contours
of a woman the impossible blossoms on the night

blood is flowing through

blood is flowing from the open doors
of our stairs

blood is flowing through

blood is flowing from clay galleys
and the white corners of the child's room

blood is flowing through

blood is flowing from the other side

when the ship ~~is~~ ^{is} the ~~ship~~ ^{ship} night

blood is flowing through ...

and should we pick a rose

blood is flowing through

and should we lift a stone

blood is flowing through

and should we gather our feet for the soil

blood is flowing through
left the pyramidal prayer of our hands
blood is flowing through
and should we step in water
blood is flowing through
through leaf and wind
through skin and membrane
blood is flowing through

the intimate skin of night
the distant sunset of day
blood is flowing through
grass and cloud ...
