

*An Account of the Number of Negroes delivered in to the Islands of Barbadoes, Jamaica, and Antego, from the Year 1698 to 1708. since the Trade was Opened, taken from the Accounts sent from the respective Governours of those Islands to the Lords Commissioners of Trade, whereby it appears the African Trade is encreas'd to four times more since its being laid Open, than it was under an Exclusive Company.*

Besides which there are 7 Separate Ships named in the foregoing List for *Antego*, but not the Number of Negroes, so we may well compute them at 1200 more, which arriv'd between 1699 and 1700.

An Account of the Number of Negroes delivered by the Royal African Company, between 1698. and 1707. given in to the Lords Commissioners of Trade by the said Company.

Years.	Number of Negroes imported by the Company.
1698	941
1699	1500
1700	2045
1701	1511
1702	2014
1703	1138
1704	2745
1705	2921
1706	1144
1707	1801
	17760

From the foregoing Account, given in by the Company, 'tis plain how many Negroes they imported Annually. So it must naturally follow, that what more than these were delivered into the Plantations, in that time, must be on Account of the Separate Traders.

Also from the Account of Negroes delivered in to *Barbadoes*, *Jamaica*, and *Antego*, it appears, that the Numbers imported into those three Islands, (allowing 1200 for the said 7 Ships, whose Numbers are not included by the Governour of *Antego* in his Account) amount to 88108. And even allowing the whole Number which the *African* Company sent out, being 17760, were all deliver'd at those three Islands only, yet then it appears, the Separate Traders have delivered 70 odd Thousand to the Company's 17760, in about the same time, besides what were delivered into *Virginia*, *Maryland*, and all the other Colonies, which must amount to at least thirty or forty Thousand more.

It appears also from the said Account, that there were imported into those 3 Colonies only 42000 and odd Negroes in the Years 1700, 1701, and 1702, whereof not above 4000 by the *African* Company, which being compared with the Company's Imports of Negroes into all the Plantations, when Exclusive, between 1680 and 1688, amounting but to 46396, or 5150 Negroes *per An.* as is to be seen by their own Account, given in to the Lords Commissioners of Trade. It is very plain, there were near as many Negroes deliver'd into those 3 Plantations in 3 Years, since the Trade was open'd, as were deliver'd in 9 Years by the Company into all the Plantations, when Exclusive to all others.

It farther appears from the said Account, that there were more Negroes deliver'd into those 3 Plantations in one Year by Separate Traders, between *April* 1701, and *April* 1702. being 18602, than the Company deliver'd in the nine Years and half since the Act, being 17760, because the Total of Negroes, imported both by the Company and Separate Traders in that Year, amounted to 20113, out of which, deducting even the full Number deliver'd by them into all the Plantations that same Year, being 1511, the Remainder is above 18602.

Again, It must be observed, that the Import of Negroes in that Year for those 3 Colonies only, are within 2000 and odd of as many as the Company deliver'd in 4 Years, when Exclusive (even in time of Peace) into all the Plantations.
